VMware EMEA Delivery Partner of the Year 2017

At the prestigious VMworld 2017 Europe event in Barcelona (Spain), Global Knowledge has been recognized for its consistent quality in delivering VMware training courses and high customer satisfaction

Global Knowledge ®

Global Knowledge has been providing IT training, business skills and consultancy services to businesses and the public sector for over 25 years. Through a process of astute acquisition and organic growth we have become the world's largest privately held learning solutions provider.

We deliver tailored courses and certified vendor programmes that continue to add value to our clients long after their employees have completed the training.

Global Knowledge provides end-to-end learning services and solutions that create a quantifiable path to improved performance and increased knowledge for enterprise customers around the globe.

Working in partnership with organizations to provide a flexible value for money service

Sustaining business profitability is critical to your long-term success. Global Knowledge can help you meet your short and long-term business objectives by providing you with the latest updates on the products, tools, skills and resources needed at every stage of your businesses evolution.

Technology is moving quickly and it is imperative that companies keep abreast of the latest innovations from the world's leading technology providers. Global Knowledge is uniquely positioned through its strong partnerships with VMware, Cisco, Microsoft, IBM, Citrix and others to provide training on the next revolutionary product.

We collaborate closely with our vendors and our strong partnerships ensure we are first to market with new courses and certifications. This means you can be among the first to adopt and, more importantly, maximise new technologies for competitive advantage. We continue to win awards worldwide for our innovation and quality of service, consistently winning prestigious awards from leading global vendors.

Join our community

Connect with our community and view all the latest IT and business industry updates, course information, events, webinars, videos and much more!

Award Winning VMware Training and Certification

Support your company's virtualization strategy with VMware training. As the multiple winner of VMware's Global Training Partner of the Year Award, we offer a full suite of courses in VMware vCloud, VMware View, VMware vSphere and Airwatch training.

VMware and Global Knowledge offers world-class certification program to ensure and validate the technical competencies and expertise needed to install, manage, deploy and support VMware software. You will also be able to illustrate your ability to operate and maintain VMware cloud environments, giving companies the confidence and peace of mind that their IT employees have the skills and experience needed to be successful in the cloud era.

VMware Certification with Global Knowledge

VMware and Global Knowledge offers world-class certification program to ensure and validate the technical competencies and expertise needed to install, manage, deploy and support VMware software.

Illustrate your ability to operate and maintain VMware cloud environments, giving companies the confidence and peace of mind that their IT employees have the skills and experience needed to be successful in the cloud era. VMware's role-based framework matches VMware certifications to both the roles that companies need to effectively design, operate, and evolve their cloud environment, and to the key technology solution areas that support the evolution to the cloud. Recognized by the industry, VMware certifications are available for three distinct skill levels on the current version of their software VMware vSphere and VMware vCenter Server.

Map your career and discover the next steps of your VMware journey with the four main certification tracks:

Data Center Virtualization

Validates your skills in designing, installing, and managing VMware vSphere environments.

Network Virtualization

Demonstrates your skills in designing, implementing, and managing a VMware NSX environment.

Cloud Management and Automation

Validates your skills in installing, configuring, and optimizing public, private, and hybrid clouds using the VMware vRealize Suite.
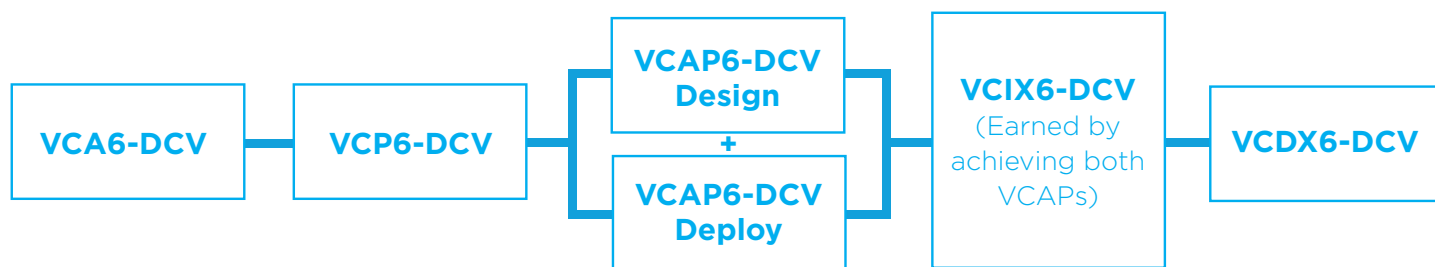

Desktop and Mobility

Demonstrates your skills in installing, configuring, and maintaining virtual desktops and applications using VMware Horizon.

Each track has the following layers:

- Associate Level (VCA)
- Professional Level (VCP)
- Advanced Professional (VCAP)
- Expert Level (VCDX)

Data Center Virtualization (DCV)

VMware Data Center Virtualization certifications are designed to gauge your level of skill designing, installing, and managing VMware vSphere environments in a real world environment.

| VCA6-DCV | VCP6-DCV | **VCAP6-DCV Design** + **VCAP6-DCV Deploy** | **VCIX6-DCV** (Earned by achieving both VCAPs) | VCDX6-DCV |

LEVEL

| VMware Certified Associate (VCA) | VMware Certified Professional (VCP) | VMware Certified Advanced Professional (VCAP) | VMware Certified Implementation Expert (VCIX) | VMware Certified Design Expert (VCDX) |

Associate ⟶ **Expert**

VCA6-DCV – VMware Certified Associate 6 – Data Center Virtualization

Gain greater credibility when discussing data center virtualization, the business challenges that vSphere is designed to address, and how virtualizing the data center with vSphere addresses those challenges. You'll be able to define the technical requirements for data center virtualization, describe and differentiate vSphere related products and technologies and identify common use cases and how they can be addressed. To become VCA-DCV certified you must pass the VCA-DCV exam. There is no training requirement, however there is a free, self-pace elearning class that can help you prepare.

If you are...	Recommended Training Courses	Exam	Certification
Just starting with VMware Data Center virtualization technologies	VMware Data Center Virtualization Fundamentals	Pass the VCA6-DCV (1V0-621) exam	VCA6-DCV

VCP6.5-DCV - VMware Certified Professional 6.5 – Data Center Virtualization

Improve your credibility and increase value to your organization by becoming VCP6.5-DCV certified. This industry-recognized certification validates that you know how to implement, manage, and troubleshoot a vSphere V6.5 infrastructure, using best practices to provide a powerful, flexible, and secure foundation for business agility that can accelerate the transformation to cloud computing.

If you are...	Recommended Training Courses	Exam	Certification
Just starting with VMware Data Center virtualization technologies	Attend any one of: • VMware vSphere: Install, Configure, Manage [V6.5] • VMware vSphere: Optimize and Scale [V6.5] • VMware vSphere: Fast Track [V6.5] • VMware vSphere: Troubleshooting Workshop [V6.5]	Pass both of the following exams: • vSphere 6.5 Foundation (2V0-602) • VCP6.5-DCV (2V0-622)	VCP6.5-DCV
Experienced with vSphere 5.x training, but are not VCP certified	VMware vSphere: What's new [v5.5 to v6.5]	Pass both of the following exams: • vSphere 6.5 Foundation (2V0-602) • VCP6.5-DCV (2V0-622)	VCP6.5-DCV

VCAP6-DCV Design - VMware Certified Advanced Professional 6 – Data Center Virtualization Design

VCAP6-DCV Design certification validates your ability to design and integrate VMware V6 infrastructure solutions in multi-site virtualized environments for large enterprises. This industry-recognized certification improves your credibility among your peers and proves that you have a deep understanding of data center design principles and methodologies.

If you are...	Recommended Training Courses	Exam	Certification
Holding a valid VCP6-DCV certification	VMware vSphere: Design and Deploy Fast Track [v6.x]	Pass the VCAP6-DCV Design (3V0-622) exam	VCAP6-DCV Design
Holding a valid VCP6-CMA, VCP6-DTM or VCP6-NV certification	VMware vSphere: Design and Deploy Fast Track [v6.x]	Pass both of the following exams: • VCP6.5-DCV (2V0-622) • VCAP6-DCV Design (3V0-622)	VCAP6-DCV Design

VCAP6-DCV Deployment - VMware Certified Advanced Professional 6 — Data Center Virtualization Deployment

The industry-recognized VCAP6-DCV Deploy certification validates that you know how to deploy and optimize vSphere V6 infrastructures. It proves that you have the knowledge and skills necessary to leverage best practices that provide a scalable and reliable virtualization platform for your organization.

If you are...	Recommended Training Courses	Exam	Certification
Holding a valid VCP6-DCV certification	VMware vSphere: Design and Deploy Fast Track [v6.x]	Pass the VCAP6-DCV Deployment (3V0-623) exam	VCAP6-DCV Deployment
Holding a valid VCP6-CMA, VCP6-DTM or VCP6-NV certification	VMware vSphere: Design and Deploy Fast Track [v6.x]	Pass both of the following exams: • VCP6.5-DCV (2V0-623) • VCAP6-DCV Deployment (3V0-623)	VCAP6-DCV Deployment

By achieving both the VCAP6-DCV Design and VCAP6-DCV Deployment certifications, you automatically hold the VCIX6-DCV (VMware Certified Implementation Expert – Data Center Virtualization) badge.

VCDX6-DCV - VMware Certified Design Expert 6 – Data Center Virtualization

VMware Certified Design Expert (VCDX) is the highest level of VMware certification. This elite group of VCDX professionals is comprised of design architects highly-skilled in VMware enterprise deployments. Prove you can deliver true business value by validating your expertise in vSphere6.x and enabling the best performance, availability, and efficiency from your infrastructure and applications.

The prerequisite for VCDX6-DCV is that you currently hold valid VCAP6-DCV Design and VCAP6-DCV Deployment certifications.

The next steps are to:

1. Review and understand the blueprint

2. Select and build a design, based on the guidance in the handbook.

3. Submit and pass application and design review.

4. Successfully defend the design against three panelists.

Network Virtualization (NV)

VMware Network Virtualization certifications are designed to gauge your level of skill designing, implementing, and managing a VMware NSX environment.

| VCA6-NV | VCP6-NV | VCAP6-NV Deploy | VCIX6-NV | VCDX6-NV |

LEVEL

| VMware Certified Associate (VCA) | VMware Certified Professional (VCP) | VMware Certified Advanced Professional (VCAP) | VMware Certified Implementation Expert (VCIX) | VMware Certified Design Expert (VCDX) |

Associate ⟶ **Expert**

VCA6-NV – VMware Certified Associate 6 – Network Virtualization

Gain greater credibility when discussing network virtualization, the business challenges VMware NSX and related networking technologies are designed to address, and how virtualizing the network with NSX addresses those challenges. You'll be able to define technical requirements for network virtualization, describe and differentiate VMware NSX components and technologies and identify common use cases and how they can be addressed.

If you are...	Recommended Training Courses	Exam	Certification
New to Network Virtualization	VMware Network Virtualization Fundamentals	Pass the VCA6-NV (1V0-642) exam	VCA6-NV

VCP6-NV - VMware Certified Professional 6 – Network Virtualization

Earn your VCP6-NV certification and transform the economics of network and security operations for your company. VCP6-NV certification validates your ability to install, configure, and administer NSX virtual networking implementations, regardless of the underlying physical architecture.

| If you are...	Recommended Training Courses	Exam	Certification
Just starting with VMware Network Virtualization technology	Attend any one of: • NSX: Install, Configure, Manage [V6.x] • NSX: Install, Configure, Manage - On Demand [V6.x] • NSX for Internetworking Experts Fast Track [V6.x] • NSX: Install, Configure, Manage plus Troubleshooting & Operations Fast Track [V6.x] • NSX Troubleshooting & Operations [V6.x] • NSX: Design & Deploy [V6.x] • Security Operations for the Software Defined Data Center	Pass both of the following exams: • vSphere 6.5 Foundation (2V0-602) • VCP6-NV (2V0-642) exam	VCP6-NV
Hold a qualifying Cisco Certification (CCNA Data Center, CCNA R&S, CCNP Data Center, CCDP R&S, CCIE Data Center, CCIE R&S)	No training required when proof of holding Cisco certification is submitted.	Pass both of the following exams: • vSphere 6.5 Foundation (2V0-602) • VCP6-NV (2V0-642) exam	VCP6-NV

VCAP6-NV Deploy - VMware Certified Advanced Professional 6 — Network Virtualization Deployment

VCAP6-NV Deploy certification validates that you know how to deploy and optimize VMware NSX environments. It proves that you have the knowledge and skills necessary to leverage best practices to provide a scalable and reliable virtualized network for your organization.

If you are…	Recommended Training Courses	Exam	Certification
Holding a valid VCP6-NV certification	Any one of: • VMware NSX Troubleshooting and Operations [v6.2] • VMware NSX: Design and Deploy [v6.1]	Pass the VCAP6-NV Deploy (3V0-643) exam	VCAP6-NV Deploy
Hold a valid VCP6-DCV, VCP6-CMA or VCP6-DTM certification	VMware NSX Troubleshooting and Operations [v6.2]	Pass both of the following exams: • VCP6-NV (2V0-642) • VCAP6-NV Deploy (3V0-643)	VCAP6-NV Deploy
Holding a valid CCIE Data Center or CCIE R&S certification	VMware NSX Troubleshooting and Operations [v6.2]	Pass the VCAP6-NV Deploy (3V0-643) exam	VCAP6-NV

Cloud Management and Automation (CMA)

VMware Cloud Management and Automation certifications are designed to gauge your level of skill installing, configuring, and optimizing VMware vRealize for your cloud solution.

VCA6-CMA Design			VCAP6-CMA Design			
	VCP6-CMA		+	VCIX6-CMA (Earned by achieving both VCAPs)	VCDX6-CMA	
VCA6-HC Deploy			VCAP6-CMA Deploy			

LEVEL

VMware Certified Associate (VCA)	VMware Certified Professional (VCP)	VMware Certified Advanced Professional (VCAP)	VMware Certified Implementation Expert (VCIX)	VMware Certified Design Expert (VCDX)

Associate ➡ **Expert**

VCA6-CMA - VMware Certified Associate 6 – Cloud Management and Automation

Gain greater credibility when discussing cloud computing, the business challenges the vCloud Suite is designed to address, and how deploying VMware Cloud solutions address those challenges. You'll be able to define cloud computing and apply Cloud Computing and VMware product features and components to help solve the Elasticity, Efficiency, Availability, and Management challenges of an on-premise cloud infrastructure.

If you are...	Recommended Training Courses	Exam	Certification
New to Cloud Management and Automation	VMware Cloud Fundamentals	Pass the VCA6-CMA (1V0-603) exam	VCA6-CMA

VCP7-CMA - VMware Certified Professional 7 – Cloud Management and Automation

VCP7-CMA certification validates your ability to install, configure and administer a VMware vRealize environment, used to automate key processes within your Data Center in a repeatable, scalable way that leads to efficiency and improved productivity. These skills enable you to simplify and standardize the more complex day to day activities, increasing your credibility and value within the organization.

If you are...	Recommended Training Courses	Exam	Certification
Just starting with VMware Cloud Management and Automation technology	Attend any one of: • VMware vRealize Automation: Install, Configure, Manage [V7.0] • VMware Cloud Automation: Design & Deploy [V7.1] • VMware Cloud Orchestration and Extensibility [V7.1]	Pass both of the following exams: • vSphere 6.5 Foundation (2V0-602) • VCP7-CMA (2V0-731) exam	VCP7-CMA

VCAP6-CMA Design - VMware Certified Advanced Professional 6 - Cloud Management and Automation Design

VCAP6-CMA Design certification validates your ability to design and integrate vRealize Automation solutions within your large enterprise environments. This industry-recognized certification improves your credibility among your peers and proves that you have a deep understanding of data center design principles and methodologies.

If you are...	Recommended Training Courses	Exam	Certification
Holding a valid VCP6-CMA or VCP7-CMA certification	VMware Cloud Automation: Design and Deploy Fast Tract [v6.0]	Pass the VCAP6-CMA Design (3V0-632) exam	VCAP6-CMA Design
Hold a valid VCP6-DCV, VCP6-DTM or VCP6-NV certification	VMware Cloud Automation: Design and Deploy Fast Tract [v6.0]	Pass both of the following exams: • VCP7-CMA (2V0-731) • VCAP6-CMA Design (3V0-632)	VCAP6-CMA Design

VCAP6-CMA Deploy - VMware Certified Advanced Professional 6 Cloud Management and Automation Deployment

The industry-recognized VCAP6-CMA Deploy certification validates that you know how to deploy and optimize data center environments using the tools provided by vRealize Automation. It proves that you have the knowledge and skills necessary to leverage best practices to provide a scalable and reliable virtualization platform for your organization.

If you are...	Recommended Training Courses	Exam	Certification
Holding a valid VCP6-CMA or VCP7-CMA certification	VMware Cloud Automation: Design and Deploy Fast Tract [v6.0]	Pass the VCAP6-CMA Deploy (3V0-633) exam	VCAP6-CMA Deploy
Hold a valid VCP6-DCV, VCP6-DTM or VCP6-NV certification	VMware Cloud Automation: Design and Deploy Fast Tract [v6.0]	Pass both of the following exams: • VCP7-CMA (2V0-731) • VCAP6-CMA Design • (3V0-633)	VCAP6-CMA Deploy

By achieving both the VCAP6-CMA Design and VCAP6-CMA Deploy certifications, you automatically hold the VCIX6-CMA (VMware Certified Implementation Expert – Cloud Management and Automation) badge.

## VCDX-Cloud - VMware Certified Design Expert – Cloud

VMware Certified Design Expert (VCDX) is the highest level of certification offered by VMware. The VCDX Program allows candidates to validate enterprise-class skills in VMware Solution design and implementation. VCDX-Cloud requires enterprise-class vSphere and data center virtualization skills but the focus is on adding the VMware vCloud Suite, building out the software-defined-data center, and delivering Infrastructure-as-a-Service with comprehensive management and security. Earning the new VCDX-Cloud certification from VMware will validate your world-class vSphere and Cloud Infrastructure design skills, and will make you one of the first globally-recognized enterprise-class Cloud Architects in the industry. The prerequisite for VCDX6-Cloud is that you currently hold valid VCAP5-CID and VCAP5-CIA certifications. It is expected that both VCAP6-CMA Design and VCAP6-CMA Deploy certifications are required in the near future.

The next steps are to:

1. Review and understand the blueprint
2. Select and build a design, based on the guidance in the handbook.
3. Submit and pass application and design review.
4. Successfully defend the design against three panelists.

Desktop and Mobility (DTM)

VMware Desktop and Mobility certifications are designed to gauge your level of skill designing, installing, and managing a VMware Horizon with View environment deployed on a VMware vSphere implementation.

LEVEL

VMware Certified Associate (VCA)	VMware Certified Professional (VCP)	VMware Certified Advanced Professional (VCAP)	VMware Certified Implementation Expert (VCIX)	VMware Certified Design Expert (VCDX)
Associate		──────────────────────────────────▶		**Expert**

VCA6-DTM - VMware Certified Associate 6 – Desktop and Mobility

Gain greater credibility when discussing desktop virtualization, the business challenges that Horizon with View and related desktop technologies are designed to address, and how virtualizing desktops and mobile devices with View addresses those challenges. You'll be able to define technical requirements for desktop virtualization, describe and differentiate Horizon with View and related products and technologies and identify common use cases and how they can be addressed.

If you are...	Recommended Training Courses	Exam	Certification
New to Desktop and Mobility	VMware Workforce Mobility Fundamentals	Pass the VCA6-DTM (1V0-605) exam	VCA6-DTM

VCP7-DTM - VMware Certified Professional 7 – Desktop and Mobility

VCP7-DTM certification holders have proven skills in performing in-depth configuration and management of VMware Horizon 7 (with View) environments. This industry-leading certification proves that you can securely deliver personalized virtual desktops, applications and online services to your end users.

If you are...	Recommended Training Courses	Exam	Certification
Just starting with VMware Desktop and Mobility technology	Attend any one of: • Horizon 7: Install, Configure, Manage [V7] • Horizon 7: Install, Configure, Manage plus App Volumes Fast Track [V7] • Horizon 7: Troubleshooting and Performance Optimization [V7]	Pass both of the following exams: • vSphere 6.5 Foundation (2V0-602) • VCP7-DTM (2V0-751) exam	VCP7-DTM

VCAP6-DTM Design - VMware Certified Advanced Professional 6 — Desktop and Mobility Design

VCAP6-DTM Design certification validates your ability to design and integrate large scale VMware Horizon 6 (with View) environments. This industry recognized certification improves your credibility among your peers and proves that you have a deep understanding of desktop and mobility design principles and methodologies.

If you are...	Recommended Training Courses	Exam	Certification
Holding a valid VCP6-DTM or VCP7-DTM certification	Horizon: Design and Deploy [v6]	Pass the VCAP6-DTM Design (3V0-652) exam	VCAP6-DTM Design
Hold a valid VCP6-DCV, VCP6-CMA or VCP6-NV certification	Horizon: Design and Deploy [v6]	Pass both of the following exams: • VCP7-DTM (2V0-751) • VCAP6-DTM Design (3V0-652)	VCAP6-DTM Design

VCAP6-DTM Deployment - VMware Certified Advanced Professional 6 — Desktop and Mobility Deployment

The industry-recognized VCAP6-DTM Deploy certification validates that you know how to deploy and optimize VMware Horizon 6 (with View) environments. It proves that you have the knowledge and skills necessary to leverage best practices to provide a scalable and reliable Business Mobility platform for your organization.

If you are...	Recommended Training Courses	Exam	Certification
Holding a valid VCP6-DTM certification	Horizon: Design and Deploy [v6]	Pass the VCAP6-DTM Deployment (3V0-653) exam	VCAP6-DTM Deployment
Hold a valid VCP6-DCV, VCP6-CMA or VCP6-NV certification	Horizon: Design and Deploy [v6]	Pass both of the following exams: • VCP7-DTM (2V0-751) • VCAP6-DTM Deployment (3V0-653)	VCAP6-DTM Deployment

By achieving both the VCAP6-DTM Design and VCAP6-DTM Deployment certifications, you automatically hold the VCIX6-DTM (VMware Certified Implementation Expert – Desktop and Mobility) badge.

VCDX-DTM - VMware Certified Design Expert – Desktop and Mobility

VMware Certified Design Expert (VCDX) is the highest level of certification offered by VMware. The VCDX certification allows you to highlight your enterprise-class skills in VMware Solution design and implementation. VCDX-DT requires enterprise-class vSphere and data center virtualization skills but the focus is on delivering virtual desktops and mobile computing solutions with the VMware Horizon Suite™ and building out the infrastructure to deliver a consistent, rich end-user experience across multiple devices. Earning the new VCDX-DT certification from VMware will validate your world-class vSphere and VMware Horizon Suite design skills, and will make you one of the first globally-recognized enterprise-class Virtual Desktop and Mobile Computing Solution Architects in the industry. The prerequisite for VCDX-DTM is that you currently hold valid VCAP5-DTD and VCAP5-DTA certifications. It is expected that both VCAP6-DTM Design and VCAP6-DTM Deployment certifications are required in the near future.

The next steps are to:

1. Review and understand the blueprint
2. Select and build a design, based on the guidance in the handbook.
3. Submit and pass application and design review.
4. Successfully defend the design against three panelists.

Airwatch Certifications

Airwatch exams are provisioned by myAirwatch.com and vouchers are distributed during class. The exam can be taken up to 6 weeks after having completed the course..

Accreditation

VMware AirWatch: Configure and Manage

Duration: 2 Days

Content: Gain a comprehensive understanding of all VMware AirWatch solutions, key device platforms, and get an overview of Airwatch Architecture.
This course provides the foundational skills necessary to manage your AirWatch deployment.

VMware AirWatch: Configure and Deploy Integrated Solutions

Duration: 2 Days

Content: Learn the skills required to configure and provision your AirWatch Cloud deployment. Access hands-on labs and learn best practices with a specific focus on how to deploy and manage AirWatch applications and integrate with enterprise resources.

VMware AirWatch: Install and Deploy on Premises Solutions

Duration: 1 Day

Content: Acquire the skills necessary to install, configure and upgrade an on-premises AirWatch server. Students will have access to hands-on labs and learn upgrade options and strategies, as well as how to troubleshoot common installation and upgrade issues.

Learning Delivery Formats

We offer a range of learning delivery formats to match your requirements, location and budget and happy to advise on how a series of courses can be combined and delivered over a period of time to provide a programme which meets your requirements.

Classroom - Public Training Schedule and Private Company Training

Our expert instructors and hands-on labs provide results-oriented, classroom training. We offer public dates at a wide variety of locations. If a public scheduled course is not available, we will work with you to provide a Private Company Training alternative, at a Global Knowledge office or at your location.

Alternative delivery formats

We accept that skilled, motivated employees work more effectively, and thanks to the dawn of flexible and non classroom-based learning, there are more options than ever before. At Global Knowledge we offer a range of flexible delivery formats to help you choose when and how you want your learning.

V&C Select™ (Virtual learning & Classroom learning)

V&C is a simple and flexible award winning solution from Global Knowledge. You can select a course from our robust public schedule and attend the course in person or as a virtual delegate - the choice is yours!

Virtual Classroom Live

Anywhere, anytime, almost any technology or business training topic, taught by expert instructors, the Global Knowledge Virtual Classroom Live learning experience is unlike anything you've seen before.

Class-Connect™ HD

Our Class-Connect™ HD is live, hands-on interactive learning where you can attend a course from different training centres.

Learning On-Demand

We offer interactive self-paced e-learning that provides flexibility in terms of pace, place and time to suit individuals and organisations. These resources also consist of online books, educational podcasts and vodcasts, and video-based learning.

Community Learning Portals

Our Community Learning Portals provides access to a range of learning resources including forums and blogs to deliver learning programmes whilst creating communities of practice and communities of learners.

Blended Learning

Many organisations are seeking a blended approach to learning, one that provides flexibility and choice around instructor-led (classroom-based), e-learning or combinations that optimise your planned learning programme.

Global Knowledge ®
